## **The Law of the Garbage Truck**

One day I hopped in taxi and we took off for the airport. We were driving in the right lane when suddenly a black car jumped out for a parking space right in front of us. My taxi driver slammed on his brakes, skidded, and missed the other car just inches! The driver of the other car whipped his head around and started yelling all manner of obscenities at us. My taxi driver just smiled and waved at the guy. And I mean, he was REALLY friendly. So I asked "Why did you just do that?" This guy almost ruined your car and nearly sent both of us to the hospital. And then my taxi driver taught me what I now call. "The Law of the Garbage Truck".

He explained that many people are like garbage trucks, They run around full of garbage, full of frustration, full of anger, and full of disappointment, As their garbage piles, they need a place to dump it and sometimes they'll dump it on you. But it is important that you don't take it personally Just smile, wave, wish they well, and move on Don't take their garbage and spread it on to other people at work, at home, or on the streets.

The bottom; line is that successful people don't let garbage trucks take over their day! Life's too short to wake up in the morning with regrets to. so.....

Love the people who treat you right, and

Pray for the ones who don't.

Life is ten percent what you make it and ninety percent how you take it!

So, have a garbage free day.
